Dear Allan,

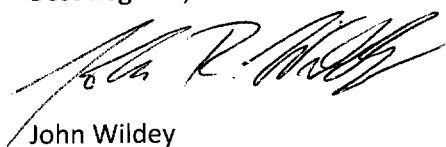

On December 12, 2008, the Honeywell Aerospace-Coon Rapids factory achieves TWO YEARS uninterrupted 100% On Time To Request (OTTR) to our customers. A critical component of this achievement is your success in continuously improving part quality and on-time delivery performance. Thank you for your contributions that enable our entire value chain to celebrate TWO YEARS 100% OTTR!

Per the enclosed invitation, we are inviting our key suppliers to a celebration to be held on December 15th. If you are unable to attend, please join us in a brief pause to reflect on your contribution to this significant accomplishment and accept our congratulations in form of a special banner to display at your facility. Please flow our congratulations down to your Honeywell focused extended staff (e.g. leadership, support functions and factory operators).

We would like to request that you provide us with a digital photograph of your team, including the banner in the photo. This photograph will be used in our celebration presentation to appropriately recognize the contributions of our extended supply chain towards the TWO YEAR 100% OTTR achievement. Please forward this photo to your Coon Rapids buyer by December 10th, 2008.

Thank you again for your contributions to this impressive achievement. Honeywell's supply partners share this success.

Best Regards,

John Wildey
Site Sourcing Leader

Randy Snell
Aero-Coon Rapids Site Leader
ISC Director

Kim Herzog
Mechanical Commodity Lead
